Pruning and Planting

\$190.00 per person.....\$225.00 with breakfast & lunch

Time 8am-4pm

This training is designed to: Train employees to properly pruning and planting trees

Why attend, request training: No tree should be pruned without first establishing clearly defined objectives: reduce risk of failure, provide clearance, reduce shade and wind resistance, maintain health, influence flower or fruit production, improve a view and improve aesthetics. Proper planting techniques are needed for the health and life of the tree.

Trainees shall bring the following equipment:

Chaps,	Hearing Protection	Eye Protection
Hard Hat	Work Gloves	Work Boots
